

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. (Currently Amended) A method of selecting a number or address from a list stored in a mobile telecommunications device for initiating a call or sending a message from the mobile telecommunications device to the number or address, the list comprising names and one or more numbers or addresses corresponding to each name, the method comprising:
displaying on a display of the mobile telecommunications device a list comprising at least some of the stored names, one of the names in the list being highlighted;
the highlighted name being displayed in the list on the display of the mobile telecommunications device together with a default one of the one or more numbers and/or addresses corresponding to the high-lighted name; and
displaying on the display of the mobile telecommunications device together with the default number or address an indication of whether the list comprises further numbers or addresses corresponding to the highlighted name in addition to the displayed number or address, wherein when the default number or address is a default number, the further numbers or addresses are one or more numbers, and when the default number or address is a default address, the further numbers or addresses are one or more addresses.
2. (Canceled).
3. (Previously Presented) A method according to claim 1, further comprising selecting the displayed default number or address, if it is indicated that this number or address is the only number or address in the list corresponding to the highlighted name.
4. (Currently Amended) A method according to claim ~~[[2]]~~ 1, comprising:
scrolling, if it is indicated that the list comprises more than one number or address

corresponding to the highlighted name, and if the displayed default number or address is not the one to which a call should be initiated or a message sent, through the numbers or addresses corresponding to the selected name by means of a 4-way navigation device until the number or address to which a call should be initiated or a message sent is displayed; and

selecting, when the number or address to which a call should be initiated or a message sent is displayed, the displayed number.

5. (Previously Presented) A method according to claim 1, wherein the default one of the one or more numbers or addresses corresponding to the highlighted name is selected based on a mode of the telecommunications device.

6. (Currently Amended) A mobile telecommunications device configured to select a number or address from a list stored in the mobile telecommunications device for initiating a call or sending a message from the mobile telecommunications device to the number or address, the list comprising names and one or more numbers or addresses corresponding to each name, the mobile telecommunications device being configured to:

display on a display of the mobile telecommunications device a list comprising at least some of the stored names, one of the names in the list being highlighted;

the highlighted name being displayed in the list on the display of the mobile telecommunications device together with a default one of the one or more numbers and/or addresses corresponding to the highlighted name; and

display on a display of the mobile telecommunications device together with the default number or address an indication of whether the list comprises further numbers or addresses corresponding to the highlighted name in addition to the displayed number or address, wherein when the default number or address is a default number, the further numbers or addresses are one or more numbers, and when the default number or address is a default address, the further numbers or addresses are one or more addresses.

7. (Canceled).

8. (Currently Amended) A mobile telecommunications device according to claim 6 wherein the device is further configured to select the displayed default number or address, if it is indicated that this number or address is the only number or address in the list corresponding to the highlighted name.

9. (Currently Amended) A mobile A telecommunications device according to claim [[7]] 6, wherein the device is further configured to:

scroll, if the list comprises more than one number or address corresponding to the highlighted name, and if the displayed default number or address is not the one to which a call should be initiated or a message sent, through the numbers or addresses corresponding to the selected name by means of a 4-way navigation device until the number or address to which a call should be initiated or a message sent is displayed; and

select, when the number or address to which a call should be initiated or a message sent is displayed, the displayed number.

10. (Currently Amended) A mobile telecommunications device according to claim 6, wherein the default one of the one or more numbers or addresses corresponding to the highlighted name is selected based on a mode of the telecommunications device.

11. (Previously Presented) A method according to claim 1 wherein displaying the highlighted name in the list together with a default one of the one or more numbers and/or addresses corresponding to the high-lighted name includes displaying the highlighted name in the list with only one default one of the one or more numbers and/or addresses corresponding to the highlighted name.

12. (Previously Presented) A method according to claim 11 wherein the highlighted name and the default one of the one or more numbers and/or addresses corresponding to the highlighted name is displayed concurrently on a single display.

13. (Currently Amended) A mobile telecommunications device according to claim 6, wherein the device is further configured to display the highlighted name in the list with only one default one of the one or more numbers and/or addresses corresponding to the highlighted name.

14. (Currently Amended) A mobile telecommunications device according to claim 13, wherein the device is further configured to display the highlighted name and the default one of the one or more numbers and/or addresses corresponding to the highlighted name on a single display.

15. (Previously Presented) A method according to claim 1, wherein the list of names, the highlighted name in the list of names and the default one of the one or more numbers and/or addresses corresponding to the highlighted name are displayed concurrently on a single display.

16. (Currently Amended) A mobile telecommunications device according to claim 13, wherein the device is further configured to display the list of names, the highlighted name in the list of names and the default one of the one or more numbers and/or addresses corresponding to the highlighted name concurrently on a single display.

17. (Previously Presented) A method according to claim 1, wherein the default number is configured to be selected and to initiate a call directly without listing the further stored number or addresses.

18. (Currently Amended) A mobile telecommunications device according to claim 13, wherein the default number is configured to be selected and to initiate a call directly without listing the further stored number or addresses.
